SEN interventions – home learning alternatives

If you are aware that your child currently receives support in school, or is finding an aspect of learning from home challenging, take a look at these ideas for ways to support your child from home.

All resources listed in green are available and can be found on the Twinkl website

Intervention	Focus	Home learning activities
Communication and Interaction Needs		
Speech & language programme	Development of expressive and receptive language skills (see your child's programme for specific targets)	<ul style="list-style-type: none"> - See your child's programme for specific activity ideas. - Tele-therapy available via 'Zoom' - Use the Auditory Memory Games ideas to practise listening and auditory memory. - Use the Conversation Practise Game / Conversation Cards to practise good conversation skills - Use Question cards for conversation practise to practise verbal reasoning skills (you can adapt/make your own) - Use What am I guessing game cards to develop questioning and thinking skills (you can adapt/make your own) - Further speech and language activities are available using the Language Link parent portal: https://speechandlanguage.info/parents
